Emergency authorisation Number: 0765 of 2026

EMERGENCY AUTHORISATION OF A PLANT PROTECTION PRODUCT

PLANT PROTECTION PRODUCTS REGULATION No 1107/2009

Extent of authorisation: Northern Ireland Only

Product name*:* Movento

Active ingredient*:* 150 g / l spirotetramat

MAPP number*:* 18435

Emergency authorisation holder*:* Horticulture Crop Protection Ltd

Product authorisation holder: Bayer CropScience Limited

This emergency authorisation ends:

(a) For placing on the market: 29 August 2026

(b) For use: 31 October 2026

(c) For storage and disposal of stocks: 30 November 2026

This emergency authorisation can be withdrawn or amended before its end date if the requirements of authorisation under Regulation 1107/2009 are no longer met. The requirements may no longer be met as a result of, for example, new information brought to the attention of the competent authority on the danger necessitating the use of the PPP, the effects of the PPP, or whether use of the PPP is limited and controlled. These examples are not exhaustive.

HSE Digital Signature

This and the attached Appendices 1 and 2 are signed by the Health and Safety Executive for and on behalf of the Department of Agriculture, Environment and Rural Affairs in Northern Ireland.

Date of issue: 1 May 2026

EXPLANATORY NOTES

1. This is Emergency authorisation number 0765 of 2026.

2. This Emergency authorisation will be published on HSE's website.

3. Application reference number: COP 2026/00275

4. Persons using the product to which this Emergency authorisation applies should acquaint themselves with and observe all requirements contained in the Regulation No 1107/2009, including the duty on the holder of any Emergency authorisation to notify information on potentially dangerous effects, a contravention of which is a criminal offence under those Regulations.

5. Neither the efficacy nor the phytotoxicity of the product for which this Emergency authorisation has been granted has been assessed and, as such, the user bears the risk in respect of failures concerning its efficacy and phytotoxicity.

6. In this notice Regulation No 1107/2009 means:
In relation to Northern Ireland, Regulation (EC) No 1107/2009 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement.

7. In this notice Regulation (EU) No 540/2011 means:
In relation to Northern Ireland, Regulation (EU) No 540/2011 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement.

ADVISORY INFORMATION

IMPORTANT: When applying this product under the terms of this emergency authorisation, comply with any resistance guidance or restrictions stated on the product label.

Total reliance on one pesticide will hasten the development of resistance. Pesticides of different chemical types or alternative control measures should be included in the planned programme. Alternating with different modes of action is a recognised anti-resistance strategy.

'Movento' contains spirotetramat which belongs to the tetronic or tetramic acid derivative group of substances (IRAG group 23) which also includes spirodiclofen and spiromesifen.

In a spray programme Movento should be used with other insecticides of a different mode of action, either in alternation or as a 2-spray block within the programme. Movento should always be applied at the full recommended rate of use and in sufficient water volume to achieve the required spray penetration into the crop and uniform coverage necessary for optimal pest control.

This emergency authorisation relates to the use of 'Movento' (M18435) for the control of Mealy cabbage aphid (*Brevicoryne brassicae*), Peach potato aphid (*Myzus persicae),* Brassica whitefly (*Aleyrodes proletella*), Swede midge (*Contarinia nasturtii)* to be applied via horizonal boom sprayer in 300 to 600 litres water per hectare.

This emergency use will end on 31 October 2026 for use.

APPENDIX 1: CONDITIONS OF EMERGENCY AUTHORISATION

The conditions below are obligatory. They must be complied with when the emergency authorisation occurs. Failure to comply with the following conditions will be likely to result in the withdrawal or amendment of the emergency authorisation under Regulation No 1107/2009 and may result in other enforcement action, including prosecution. For the purposes of this emergency authorisation only, the conditions and/or requirements shown below supersede any corresponding conditions and/or requirements set out on the label or otherwise provided for under the product authorisation **which would otherwise apply**.

Use:

Field of use: **ONLY AS AN INSECTICIDE**

User: Professional

Crops/situations:	Maximum individual dose: (litres product / ha)	Maximum total dose:	Maximum number of treatments: (per crop)	Latest time of application:
Broccoli/ calabrese, Brussels sprout, cabbage, cauliflower, collard, kale	0.5	-	2	3 days before harvest

Operator Protection:

(1) Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

Operators must wear suitable protective clothing (coveralls), suitable protective gloves and face protection (faceshield) when handling the concentrate.

(2) However, engineering controls must replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection.

Other specific restrictions:

(1) This product must only be applied in accordance with the terms of this emergency authorisation, the product label and/or leaflet.

(2) Non-returnable containers must not be re-used for any purpose

APPENDIX 2: GENERAL CONDITIONS FOR AN EMERGENCY AUTHORISATION

Failure to comply with the following conditions is likely to result in the withdrawal or amendment of the emergency authorisation under Regulation No 1107/2009 and may result in other enforcement action, including prosecution.

Adverse effects:

The authorisation holder must immediately notify the Department of Agriculture, Environment and Rural Affairs in Northern Ireland (care of the Health and Safety Executive), if they have any new information on the potentially adverse effects of the authorised product, or of residues of an active substance in that product when used in accordance with the conditions of this authorisation. Failure to comply with this requirement is an offence.

Provision of information:

The authorisation holder must comply with all requests for information required by, or on behalf of, the Department of Agriculture, Environment and Rural Affairs in Northern Ireland in accordance with Regulation No 1107/2009.

APPENDIX 3: STEWARDSHIP

This stewardship is prepared in accordance with the specific conditions of this emergency authorisation. It must be followed as a condition of the authorisation.

The terms of the emergency authorisation stewardship are:

Stewardship records will be collated by HCP and made available to the Chemicals Regulation Division of HSE on request and at the point of any subsequent application for this emergency use.

The following table provides a summary of the agreed stewardship measures:

Stewardship components:	**Responsibilities:**
Overall stewardship approach	Horticulture Crop Protection UK Limited (HCP)
Communication to industry on authorisation conditions and stewardship approach	Communications will be made by HCP direct to NI brassica growers and via associated industry: agronomists, Ulster Farmers' Union, DAERA, Brassica Growers' Association, agrochemical distributors and Bayer CropScience Ltd.
Product supply	The intended route of product supply of Movento is direct from the authorisation holder Bayer CropScience Ltd or via distributors, to growers.
Disposal of unused product once authorisation for use has expired	Agrochemical distributors and Bayer CropScience Ltd
Collation of usage data for HSE	Data on volumes of Movento supplied for this Emergency authorisation will be collated by agrochemical distributors and Bayer CropScience Ltd. Data on product use (date, field location, area treated, reason for spray) must be provided to HCP by individual growers. A template will be provided for this purpose. Stewardship records will be collated by HCP and made available to the Chemicals Regulation Division of HSE on request and at the point of any subsequent application for this emergency use.
